Project: MIS220 TM 9(Team John)

Test Case ID	Asset	Feature	Environment	Test Case Description	Test Data	Steps to Execute	Expected Result	Actual Result	Pass / Fail / Pend
1	Windows Forms	frmLogin	C# WinForm	Email and PW Null	General Test Case	Open Project, leave both fields blank and press login	Error message stating The Email is incorrect	As expected	Pass
2	Windows Forms	frmLogin	C# WinForm	Email Incorrect	General Test Case	Enter correct password but incorrect email	Error message stating The Email is incorrect	As expected	Pass
3	Windows Forms	frmLogin	C# WinForm	PW incorrect	General Test Case	Enter correct email and wrong password	Error message stating The PW is incorrect	As expected	Pass
4	Windows Forms	frmLogin	C# WinForm	Correct Test email for customer	General Test Case	Enter correct credentials for an customer account	Log in as customer	As expected	Pass
5	Windows Forms	frmLogin	C# WinForm	Correct Test email for employee	General Test Case	Enter correct credentials for an employee account	Log in as employee	As expected	Pass
6	Windows Forms	frmLogin	C# WinForm	Test clear button functionality	General Test Case	Clear when fields have data	fields will be cleared	As expected	Pass
7	Windows Forms	frmLogin	C# WinForm	Test clear button functionality	General Test Case	Press clear when fields do not have data	nothing	As expected	Pass
8	Windows Forms	frmLogin	C# WinForm	Test create account button	General Test Case	Click create account.	Open create account form	As expected	Pass
9	Windows Forms	frmCreateAccount	C# WinForm	Leave all fields null	General Test Case	Click create account, leave all fields null, and then click create.	Error message that the First Name is incorrect	As expected	Pass
10	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Fname	General Test Case	All fields correctly entered except for Fname	Error Message about incorrect Data	As expected	Pass
11	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Lname	General Test Case	All fields correctly entered except for Lname	Error Message about incorrect Data	As expected	Pass
12	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Address	General Test Case	All fields correctly entered except for Address	Error Message about incorrect Data	As expected	Pass
13	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for City	General Test Case	All fields correctly entered except for City	Error Message about incorrect Data	As expected	Pass
14	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Zip	General Test Case	All fields correctly entered except for Zip	Error Message about incorrect Data	As expected	Pass
15	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Current Email	General Test Case	All fields correctly entered except for Current Email	Error Message about incorrect Data	As expected	Pass
16	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for Confirm Email	General Test Case	All fields correctly entered except for Confirm Email	Error Message about incorrect Data	As expected	Pass
17	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for PW	General Test Case	All fields correctly entered except for PW	Error Message about incorrect Data	As expected	Pass
18	Windows Forms	frmCreateAccount	C# WinForm	All fields correctly entered except for confirm PW	General Test Case	All fields correctly entered except for confirm PW	Error Message about incorrect Data	As expected	Pass
19	Windows Forms	frmCreateAccount	C# WinForm	Enter Numbers for Fname	General Test Case	Enter Numbers for Fname	data will be rejected and not even show up	As expected	Pass
20	Windows Forms	frmCreateAccount	C# WinForm	Enter numbers for Lname	General Test Case	Enter numbers for Lname	data will be rejected and not even show up	As expected	Pass
21	Windows Forms	frmCreateAccount	C# WinForm	Enter numbers for city	General Test Case	Enter numbers for city	data will be rejected and not even show up	As expected	Pass
22	Windows Forms	frmCreateAccount	C# WinForm	Enter letters for zip	General Test Case	Enter letters for zip	data will be rejected and not even show up	As expected	Pass
23	Windows Forms	frmCreateAccount	C# WinForm	Select US as country and use zip code bigger than 5	General Test Case	select us as country, go to zip code box and type in more than 5 numbers	Stops reading data after 5	As expected	Pass
24	Windows Forms	frmCreateAccount	C# WinForm	Select US as country and use zip code smaller than 5	General Test Case	select us as country, go to zip code box and type in less than 5 numbers	error message about zip	As expected	Pass
25	Windows Forms	frmCreateAccount	C# WinForm	Select CA as country and use zip code bigger than 7 and letters	General Test Case	use letters for input and see if it takes it, also try to exceed 7 characters for zip	Will stop reading in after 7	As expected	Pass
26	Windows Forms	frmCreateAccount	C# WinForm	Select CA as country and use zip code smaller than 7	General Test Case	select CA as country and only use 5 numbers	Error message about zip	As expected	Pass
27	Windows Forms	frmCreateAccount	C# WinForm	Use emails that don't match	General Test Case	Use test and test1 respectively as the two emails	Error message stating The emails do not match	As expected	Pass
28	Windows Forms	frmCreateAccount	C# WinForm	Use Passwords that are less than 8 characters	General Test Case	Use Passwords that are less than 8 characters	Error that the password isnt long enough	As expected	Pass
29	Windows Forms	frmCreateAccount	C# WinForm	Nonmatching passwords	General Test Case	Use two passwords that are long enough but don't match	Error that pw don't match	As expected	Pass
30	Windows Forms	frmCreateAccount	C# WinForm	Cancel button functionality	General Test Case	Press cancel button	close createAccountForm	As expected	Pass
31	Windows Forms	frmCreateAccount	C# WinForm	Enter valid data in all fields and create an account	General Test Case	Enter valid data for each field and press create.	Account will be created and the form will close, opening login page	As expected	Pass
32	Windows Forms	frmCreateAccount	C# WinForm	Use just created account to login	General Test Case	Check login page and enter the credentials that you just created while creating new account to make sue database is functioning.	login with no issues	As expected	Pass
33	Windows Forms	frmCreateAccount	C# WinForm	try to create account with existing email	General Test Case	Create an account with the same email you just used to create the account in test 31.	Error message stating the email already exists	As expected	Pass
34	Windows Forms	Forgot PW	C# WinForm	Click forgot password to open the form and leave all fields blank	General Test Case	Click forgot password to open the form and leave all fields blank, then press reset	Error message- check email	As expected	Pass

Test Case ID	Asset	Feature	Environment	Test Case Description	Test Data	Steps to Execute	Expected Result	Actual Result	Pass / Fail / Pend
35	Windows Forms	Forgot PW	C# WinForm	Leave email null	General Test Case	Leave email null and press reset	Error message that the file is incorrect	As expected	Pass
36	Windows Forms	Forgot PW	C# WinForm	Leave code null	General Test Case	Leave code null and press reset	Error message that the file is incorrect	As expected	Pass
37	Windows Forms	Forgot PW	C# WinForm	enter nonexistant email	General Test Case	enter email that doesn't exist and press send code	Error email doesn't exist	As expected	Pass
38	Windows Forms	Forgot PW	C# WinForm	enter correct email	General Test Case	enter correct email and press send code	code should send to email	As expected	Pass
39	Windows Forms	Forgot PW	C# WinForm	use wrong code after right code received	General Test Case	look at received code and change one digit, then enter it into the code box and press reset	code incorrect	As expected	Pass
40	Windows Forms	Forgot PW	C# WinForm	enter right code and click reset	General Test Case	enter right code and click reset	frmResetPassword opens up	As expected	Pass
41	Windows Forms	Forgot PW	C# WinForm	leave both fields blank	General Test Case	leave both pw and confirm pw fields blank and press reset	Error message that pw are not long enough	As expected	Pass
42	Windows Forms	Forgot PW	C# WinForm	Leave new pass blank	General Test Case	complete confirm pass but leave newpass blank and press reset	error message that the Passwords don't match	As expected	Pass
43	Windows Forms	Forgot PW	C# WinForm	Leave confirm blank	General Test Case	fill out new password field but leave confirm password field blank and press reset	error message that the Passwords don't match	As expected	Pass
44	Windows Forms	Forgot PW	C# WinForm	Mismatched passwords	General Test Case	use mismatched passwords that are long enough	Error message that passwords don't match	As expected	Pass
45	Windows Forms	Forgot PW	C# WinForm	matching pw but not long enough(less than 8)	General Test Case	use password less than 8 characters and press reset	Error message that pw is too short	As expected	Pass
46	Windows Forms	Forgot PW	C# WinForm	matching pw that are correct length(12345678)	General Test Case	use a matching password that is also valid in terms of length	runs as normal	As expected	Pass
47	Windows Forms	Forgot PW	C# WinForm	Go Back to login screen and test new password	General Test Case	Go to login screen and try to login with the user who you just edited the password for, and use the new password	Run as normal	As expected	Pass
48	Windows Forms	frmCatalog	C# WinForm	Open frmCatalog after you are logged in as a customer	General Test Case	Login as customer, open frmCatalog by pressing Catalog.	Run as normal	As expected	Pass
49	Windows Forms	frmCatalog	C# WinForm	Change category to alcohol	General Test Case	Change category in top right to alcohol	Run as normal	As expected	Pass
50	Windows Forms	frmCatalog	C# WinForm	change category to household	General Test Case	change category in top right to household	Run as normal	As expected	Pass
51	Windows Forms	frmCatalog	C# WinForm	Change category to select a category to see all products	General Test Case	Change category in top right corner to select a category, this will show all categories	Run as normal	As expected	Pass
52	Windows Forms	frmCatalog	C# WinForm	Add one item of alcohol to cart	General Test Case	Add one 750mL bottle of jack danielson to the cart	Bday form pops up, run as normal	As expected	Pass
53	Windows Forms	frmCatalog	C# WinForm	Leave as 1,1,null	General Test Case	leave bday as 1,1,null	error that null isnt a year	Went thru because null date is set to the year 0000	Fail
54	Windows Forms	frmCatalog	C# WinForm	enter underage bday	General Test Case	enter underage birthday	error that you are underage	As expected	Pass
55	Windows Forms	frmCatalog	C# WinForm	Enter valid bday	General Test Case	enter valid birthday for alcohol purchase	Run as normal	As expected	Pass
56	Windows Forms	frmCatalog	C# WinForm	Close frmCatalog	General Test Case	Close frmCatalog	Run as normal	As expected	Pass
57	Windows Forms	frmCatalog	C# WinForm	Add two items to cart that are in stock	General Test Case	Add two items to cart that are in stock	Run as normal	As expected	Pass
58	Windows Forms	frmCatalog	C# WinForm	add an item that is out of stock	General Test Case	Add an item that says is out of stock	error this item is out of stock	As expected	Pass
59	Windows Forms	frmCatalog	C# WinForm	get spoiled milk	General Test Case	get spoiled milk	Run as normal	As expected	Pass
60	Windows Forms	frmCatalog	C# WinForm	use quantity button to add 3 of one item	General Test Case	select item, then press plus button on item qty to make the order equal 3 of the item.	Run as normal	As expected	Pass
61	Windows Forms	frmCatalog	C# WinForm	Check cart to ensure last test went through	General Test Case	Open cart an examine if your last added items are there	Run as normal	As expected	Pass
62	Windows Forms	frmCatalog	C# WinForm	Close Cart	General Test Case	Close Cart	Run as normal	As expected	Pass
63	Windows Forms	frmCatalog	C# WinForm	try to add more than in stock of item	General Test Case	find item with 3 available and try to add more than 3	Run as normal	As expected	Pass
64	Windows Forms	frmCatalog	C# WinForm	close frmShop	General Test Case	close frmShop	Run as normal	As expected	Pass
65	Windows Forms	frmCatalog	C# WinForm	log out	General Test Case	log out	Run as normal	As expected	Pass
66	Windows Forms	frmCatalog	C# WinForm	log back in and open cart	General Test Case	log back in and open cart to make sure cart saved over	Run as normal	As expected	Pass
67	Windows Forms	frmAddCard	C# WinForm	press add card to open frmAddCard	General Test Case	press add card to open frmAddCard	Run as normal	As expected	Pass
68	Windows Forms	frmAddCard	C# WinForm	leave all fields blank	General Test Case	Leave all fields blank and press add	Error	As expected	Pass
69	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for name	General Test Case	fill out all fields except for name	Error	As expected	Pass
70	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for billing	General Test Case	fill out all fields except for billing	Error	As expected	Pass
71	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for city	General Test Case	fill out all fields except for city	Error	As expected	Pass
72	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for Exp month	General Test Case	fill out all fields except for Exp month	Error	As expected	Pass
73	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for card num	General Test Case	fill out all fields except for card num	Error	As expected	Pass
74	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for csv	General Test Case	fill out all fields except for csv	Error	As expected	Pass
75	Windows Forms	frmAddCard	C# WinForm	fill out all fields except for zip	General Test Case	fill out all fields except for zip	Error	As expected	Pass
76	Windows Forms	frmAddCard	C# WinForm	enter letters into month/yearbox	General Test Case	enter letters into month/yearbox	rejected(run as normal)	As expected	Pass
77	Windows Forms	frmAddCard	C# WinForm	enter letters for card number	General Test Case	enter letters for card number	rejected(run as normal)	As expected	Pass
78	Windows Forms	frmAddCard	C# WinForm	enter letters for csv	General Test Case	enter letters for csv	rejected(run as normal)	As expected	Pass
79	Windows Forms	frmAddCard	C# WinForm	enter letters for zip code	General Test Case	enter letters for zip code	rejected(run as normal)	As expected	Pass
80	Windows Forms	frmAddCard	C# WinForm	enter numbers for name	General Test Case	enter numbers for name	rejected(run as normal)	As expected	Pass

Test Case ID	Asset	Feature	Environment	Test Case Description	Test Data	Steps to Execute	Expected Result	Actual Result	Pass / Fail / Pend
81	Windows Forms	frmAddCard	C# WinForm	enter numbers for city	General Test Case	enter numbers for city	rejected(run as normal)	As expected	Pass
82	Windows Forms	frmAddCard	C# WinForm	Click cancel button	General Test Case	click cancel button	Run as normal	As expected	Pass
83	Windows Forms	frmAddCard	C# WinForm	Canada country zip check	General Test Case	choose canada and try to use zip with only 5	error	As expected	Pass
84	Windows Forms	frmAddCard	C# WinForm	Canada country zip check	General Test Case	choose canada and try to use zip with letters	Run as normal	As expected	Pass
85	Windows Forms	frmAddCard	C# WinForm	Correct info in all fields, add card	General Test Case	Correct info in all fields, add card	Run as normal	As expected	Pass
86	Windows Forms	frmCart	C# WinForm	Go to cart and remove one item	General Test Case	Go to cart and remove one item	Run as normal	As expected	Pass
87	Windows Forms	frmCart	C# WinForm	select 1 item and remove multiples with the plus button	General Test Case	select 1 item and remove multiples with the plus button	Run as normal	As expected	Pass
88	Windows Forms	frmCart	C# WinForm	edit cart quantity	General Test Case	edit cart quantity	Run as normal	As expected	Fail
89	Windows Forms	frmCart	C# WinForm	ensure checkout button works	General Test Case	ensure checkout button works	Run as normal	As expected	Pass
90	Windows Forms	frmCart	C# WinForm	Press close	General Test Case	ensure close button works by pressing closse	Run as normal	As expected	Pass
91	Windows Forms	frmAddMembership	C# WinForm	press add membership to open frmAddMembership	General Test Case	press add membership to open frmAddMembership	Run as normal	As expected	Pass
92	Windows Forms	frmAddMembership	C# WinForm	leave all fields blank	General Test Case	Leave all fields blank and press add	Error	As expected	Pass
93	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for name	General Test Case	fill out all fields except for name	Error	As expected	Pass
94	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for billing	General Test Case	fill out all fields except for billing	Error	As expected	Pass
95	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for city	General Test Case	fill out all fields except for city	Error	As expected	Pass
96	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for Exp month	General Test Case	fill out all fields except for Exp month	Error	As expected	Pass
97	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for card num	General Test Case	fill out all fields except for card num	Error	As expected	Pass
98	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for csv	General Test Case	fill out all fields except for csv	Error	As expected	Pass
99	Windows Forms	frmAddMembership	C# WinForm	fill out all fields except for zip	General Test Case	fill out all fields except for zip	Error	As expected	Pass
100	Windows Forms	frmAddMembership	C# WinForm	enter letters into month/yearbox	General Test Case	enter letters into month/yearbox	rejected(run as normal)	As expected	Pass
101	Windows Forms	frmAddMembership	C# WinForm	enter letters for card number	General Test Case	enter letters for card number	rejected(run as normal)	As expected	Pass
102	Windows Forms	frmAddMembership	C# WinForm	enter letters for csv	General Test Case	enter letters for csv	rejected(run as normal)	As expected	Pass
103	Windows Forms	frmAddMembership	C# WinForm	enter letters for zip code	General Test Case	enter letters for zip code	rejected(run as normal)	As expected	Pass
104	Windows Forms	frmAddMembership	C# WinForm	enter numbers for name	General Test Case	enter numbers for name	rejected(run as normal)	As expected	Pass
105	Windows Forms	frmAddMembership	C# WinForm	enter numbers for city	General Test Case	enter numbers for city	rejected(run as normal)	As expected	Pass
106	Windows Forms	frmAddMembership	C# WinForm	Click cancel button	General Test Case	click cancel button	Run as normal	As expected	Pass
107	Windows Forms	frmAddMembership	C# WinForm	Canada country zip check	General Test Case	choose canada and try to use zip with only 5	error	As expected	Pass
108	Windows Forms	frmAddMembership	C# WinForm	Correct info in all fields, add card	General Test Case	Correct info in all fields, add card	Run as normal	As expected	Pass
109	Windows Forms	frmReturn	C# WinForm	open return form by pressing return	General Test Case	open return form by pressing return	Run as normal	As expected	Pass
110	Windows Forms	frmReturn	C# WinForm	Item returns if return preessed	General Test Case	item will be returned if it is selected and you press return	Run as normal	As expected	Pass
111	Windows Forms	frmReturn	C# WinForm	pressing return with no itrems selected does nothin	General Test Case	pressing return with no itrems selected does nothin	Run as normal	As expected	Pass
112	Windows Forms	frmReturn	C# WinForm	log out from here.	General Test Case	log out from here	Run as normal	As expected	Pass
113	Windows Forms	frmManageEmployee	C# WinForm	open manage employees to open frmManageEmployees	General Test Case	open manage employees to open frmManageEmployees	Run as normal	As expected	Pass
114	Windows Forms	frmAddEmployee	C# WinForm	Add Employee	General Test Case	press add employee to open frmAddEmployee	Run as normal	As expected	Pass
115	Windows Forms	frmAddEmployee	C# WinForm	Leave all fields null	General Test Case	Click create account, leave all fields null, and then click create.	Error message that the First Name is incorrect	As expected	Pass
116	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Fname	General Test Case	All fields correctly entered except for Fname	Error Message about incorrect Data	As expected	Pass
117	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Lname	General Test Case	All fields correctly entered except for Lname	Error Message about incorrect Data	As expected	Pass
118	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Address	General Test Case	All fields correctly entered except for Address	Error Message about incorrect Data	As expected	Pass
119	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for City	General Test Case	All fields correctly entered except for City	Error Message about incorrect Data	As expected	Pass
120	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Zip	General Test Case	All fields correctly entered except for Zip	Error Message about incorrect Data	As expected	Pass
121	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Current Email	General Test Case	All fields correctly entered except for Current Email	Error Message about incorrect Data	As expected	Pass
122	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for Confirm Email	General Test Case	All fields correctly entered except for Confirm Email	Error Message about incorrect Data	As expected	Pass
123	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for PW	General Test Case	All fields correctly entered except for PW	Error Message about incorrect Data	As expected	Pass
124	Windows Forms	frmAddEmployee	C# WinForm	All fields correctly entered except for confirm PW	General Test Case	All fields correctly entered except for confirm PW	Error Message about incorrect Data	As expected	Pass
125	Windows Forms	frmAddEmployee	C# WinForm	Enter Numbers for Fname	General Test Case	Enter Numbers for Fname	data will be rejected and not even show up	As expected	Pass
126	Windows Forms	frmAddEmployee	C# WinForm	Enter numbers for Lname	General Test Case	Enter numbers for Lname	data will be rejected and not even show up	As expected	Pass

Test Case ID	Asset	Feature	Environment	Test Case Description	Test Data	Steps to Execute	Expected Result	Actual Result	Pass / Fail / Pen
127	Windows Forms	frmAddEmployee	C# WinForm	Enter numbers for city	General Test Case	Enter numbers for city	data will be rejected and not even show up	As expected	Pass
128	Windows Forms	frmAddEmployee	C# WinForm	Enter letters for zip	General Test Case	Enter letters for zip	data will be rejected and not even show up	As expected	Pass
129	Windows Forms	frmAddEmployee	C# WinForm	Select US as country and use zip code bigger than 5	General Test Case	select us as country, go to zip code box and type in more than 5 numbers	Stops reading data after 5	As expected	Pass
